A CRISIL 5 STAR RATED PROJECT

INTERSTELLAR

DESIGN CONCEPT

INTERSTELLAR is designed as a composition of rectilinear volumes with a frontage along a 100 feet road in Bodakdev in Ahmedabad. Retail spaces occupy the lower 4 levels and office levels above step back creating a large landscaped space towards the west for offices. Altogether 12 office floors step back gradually & intermittently to form terraces for offices. The changing locations of terraces not only creates usable outdoor terraces but also creates individual identities for each floor avoiding the repetitive character of most office buildings.

The juxtaposition of rectangular volumes creates a unique building that will redefine the way office spaces are perceived whilst becoming a landmark for the city.

RIGHT LOCATION IMPROVES FEASIBILITY

IN THE VICINITY OF SBR

Retail today within the offline marketplace is a brick-and-mortar space that must offer experience. We believe that the placement and positioning precedes that experience while being relevant to its brand positioning.

INTERSTELLAR, by the virtue of its location does that. Off Sindhu Bhavan Road but on 100ft road, with peak frontage gives all the advantages of a captive audience.

“CONSISTENCY ENHANCES CONTINUITY”

Can success really be repeated?

Not really, and though it can't be a set formula, we at Suvidha have tried to repeat the 'ingredients of success' with Stellar, to bring continuity through consistency. A location not too far, a name that has the familiarity-connect and the set of consultants as a brilliant team of proven expertise.
